

Summer Semester 2021, Mon 15:00, Littrow Lecture Hall

| Day | Speaker | Institute | Title |
|--------------------------------|------------------------|--------------------------|---|
| 01 Mar | Introduction | | |
| 08 Mar | Rudolf Albrecht | Austrian Space Forum | Consequences, Including Failure, of a NEO Mitigation Space Mission |
| 15 Mar @13:15 | Long Wang | Argelander-Institut | The impact of IMF on the dynamical evolution of star clusters and gravitational waves |
| 22 Mar | Wilma Trick | MPA Garching | Gaia & the fingerprints of the Galactic bar - A dynamical Milky Way mystery |
| 29 Mar | <i>Easter Holidays</i> | | |
| 5 Apr | <i>Easter Holidays</i> | | |
| 12 Apr | Eleonora Zari | MPIA Heidelberg | The distribution of Young stars in the local Galaxy |
| 19 Apr | Germano Sacco | Arcetri, Florence | ESO-Gaia and 4SYS surveys |
| 26 Apr | Friedrich Kupka | Wolfgang-Pauli-Institut | Advanced convection modelling in asteroseismology and stellar evolution |
| 03 May | <i>SAB meeting</i> | | |
| 10 May | Rim Fares | UAE University | Star-Planet Interactions: Why Do We Care? |
| 17 May | Monika Lendl | University of Geneva | The Characterizing Exoplanets Satellite (CHEOPS) |
| 24 May | <i>Whit Monday</i> | | |
| 31 May | Anna Lisa Varri | University of Edinburgh | The new phase space complexity of old stellar systems |
| 07 Jun | Luca Fossati | Space Research Institute | Exoplanet science at the Space Research Institute |
| 14 Jun | Frank Eisenhauer | MPE | A New Era of Interferometry with GRAVITY |
| 21 Jun | Rachana Bhatwadekar | ESA | Cosmic reionisation: A who dunnit tale |
| 28 Jun | <i>EAS 2021</i> | | |

Organized by João Alves, Glenn van de Ven & Ryan Leaman
