The University of Vienna (20 faculties and centres, 178 fields of study, approx. 9,800 members of staff, about 90,000 students) seeks to fill the position from 01.03.2020 of a

**Senior Scientist**

at the Department of Astrophysics

Reference number: 10486

The Department of Astrophysics is part of the Faculty of Earth Sciences, Geography and Astronomy at the University of Vienna. Presently about 70 employees work at the department.

We seek an outstanding and enthusiastic scientist to lead and coordinate public outreach and education activities in astrophysics in our department. Main responsibilities will be related to our historic telescope infrastructure, the museum including the rare book collection, and the mobile planetarium. Tasks include organisation of public outreach activities, guided tours to the infrastructure, contact to the media, as well as the coordination of teaching activities.

Initially this position is to be filled for one year. By mutual agreement it can be extended to a permanent contract.

Duration of employment: 1 year/s

Extent of Employment: 40 hours/week

Job grading in accordance with collective bargaining agreement: §48 VwGr. B1 lit. b (postdoc) with relevant work experience determining the assignment to a particular salary grade.

Job Description:
The tasks conform to the collective bargaining agreement of the Austrian universities (see currently §26 (2) and (5)).

They comprise as main activities:

1) Maintaining and managing the use of the historic telescope infrastructure, the museum, the rare book collection of our library, and the mobile planetarium;
2) Managing and executing the communication of our activities to the scientific community and the general public, including overseeing and developing of our website, organising guided tours, public talks, and outreach events;
3) Contributing continuously to the scientific profile of the University of Vienna in the field of Astrophysics by conducting own research activities leading to scientific publications;
4) Supporting the coordination of teaching for bachelor and master students;

Further responsibilities include:
5) Conducting independent teaching (in agreement with the collective bargaining agreement);
6) (Co-)Supervising students on own research interests and activities;
7) Contributing to general organisational and administrative tasks as well as evaluation procedures.

Profile:
Doctoral / PhD degree in astronomy or astrophysics, and several years of experience in public outreach activities. Very good command of written and spoken English and German. Excellent communication skills, leadership qualities, good team-working ability, experience in student supervision. Your application should include a letter of motivation, a curriculum vitae (with a list of publications and presentations) and a statement of previous relevant experience including public outreach and education activities. Please also give names and contact details of 3 persons that can provide a recommendation letter.

Research fields:
Physics, Astronomy
Astronomy;Astrophysics MUST
