

Winter Semester 2019, Monday 15:00, Littrow Lecture Hall

Organised by Glenn van de Ven & Joao Alves

Day	Speaker	Institute	Title	Host
7 Oct	Ling Zhu	Shanghai Astronomical	Disentangling galaxy formation history through a	Glenn van de Ven
14 Oct	Paolo Salucci	SISSA Trieste, Italy	A new Paradigm and a new Scenario for Dark Matter	Bodo Ziegler
21 Oct	Franz Kerschbaum et al.	University of Vienna, Austria	In memoriam Thomas Posch	Franz Kerschbaum
28 Oct	Monika Moscibrodzka	Radboud University Nijmegen,	Seeing the Unseeable: First Results from the Event	Glenn van de Ven
4 Nov	Mariya Lyubenova	ESO Garching, Germany	The complex formation paths of Nuclear Star Clusters	Glenn van de Ven
11 Nov	Florian Reindl	HEPHY, Vienna, Austria	Cool dark matter searches - CRESST and COSINUS	Franz Kerschbaum
18 Nov	Peeter Tenjes	Tartu Observatory, Estonia	Gravitational potential of the Galaxy	Bodo Ziegler
25 Nov	Andrew Winter	University of Leicester, UK	Planet formation and stellar birth environment	Christine Ackerl (Alves)
2 Dec	Hans-Ulrich Käufl	ESO Garching, Germany	NEAR: New Earths in the Alpha Cen Region, or ESO-	Josef Hron
9 Dec	Ciska Kemper	ESO Garching, Germany	The status of the ALMA observatory and the origin of	Franz Kerschbaum
16 Dec	Rhea-Silvia Remus	USM, Munich, Germany	Deciphering Galaxy Formation: Dynamical and	Glenn van de Ven
23 Dec	<i>X-mas holidays</i>			
30 Dec	<i>X-mas holidays</i>			
6 Jan	<i>3 Kings</i>			
13 Jan	Johannes Böhm	TU Wien, Austria	VLBI for Geodesy and Astrometry	Bodo Ziegler
20 Jan				
27 Jan	Denis Shulyak	MPS Göttingen	TBD	Kristina Kislyakova
3 Feb	Scott Gregory	University of St Andrews, UK	TBD	Colin Johnstone
